

Sterilis Solutions' Remediation-as-a-Service (RaaS)

Save on your Regulated Medical Waste (RMW) with a flexible **pay-by-the-cycle program** inclusive of Sterilis Solutions' best-in-class equipment, service, and integrated cloud-based reporting software. RaaS has no upfront capital expenditure and operationalizes the cost of safely remediating Regulated Medical Waste.

REMEDICATION AS A SERVICE INCLUDES:

EQUIPMENT: Sterilis Solutions' Remediator is an efficient onsite medical waste processor

SERVICE: Comprehensive support and maintenance included with every cycle, protected by remote monitoring and expert technicians

SOFTWARE: Integrated, secure cloud-based software for reporting equipment history, ensuring auditing and compliance

HOW TO GET STARTED

Step 1: Consulting

The Sterilis Remediator offers flexibility for your site's waste management needs. A solutions expert will analyze your current and future RMW production and provide a comprehensive analysis to efficiently match capacity while maximize potential savings.

Step 2: Quoting and Solution Structure

Sterilis Solutions develops a program that best meets your site's operational strategy using our technology. A full report that includes the analysis from the consulting stage, is provided laying out a transparent RaaS quote with minimum and maximum monthly costs.

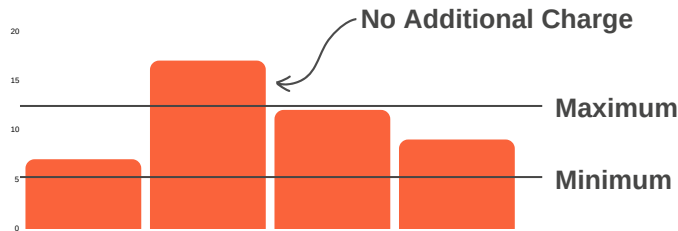

Step 3: White Glove Commissioning and Training

Kick-off includes white glove delivery and installation, ensuring the device meets all local, state, and federal requirements for RMW remediation. Your staff will then be trained by Sterilis experts to equip them with the knowledge and skill to operate and deliver the required compliance documentation.

EXAMPLE REMEDIATION-AS-A-SERVICE PRICING

Price per Cycle	Usage (Monthly)	Monthly Charge	Fee Per Cycle Above Ceiling
\$8.67	No restrictions	(Price) x (Usage)	Min: \$1,690.65 (195 cycles) *Max: \$2,210.85 (255 cycles)

*Your minimum is set to be a discount to your expected usage, and your monthly payment is capped to provide cost predictability. Pricing is capped, but usage remains uncapped, with in-month cycles above maximum provided at no charge.
